AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Unred.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. Mrs. AYER'S CHERRY PECTORAL relieved me of my illness, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 64 years old and healthy, and am satisfied with my CHERRY PECTORAL saved me." HORACE FAIRBROTHER, Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While I was very ill, my little boy, three years old, was taken with croup, as if he had died from straining. One of the family suggested that use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half a day the croup passed away entirely. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY."

159 West 12th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL for myself and several members of my family, and find it to be the most effective remedy for coughs and colds we have ever tried. A. J. CRANE."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WADDELL."

Bethel, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles.

E. BRAGDON."

Palestine, Texas, April 22, 1882.

"No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.

The Mystery of the Metropolitan.

[Olive Harper.]

In the latter part of April, 1873, I went to the Metropolitan hotel in New York, which is situated at the corner of Broadway and Prince Street, and was assigned to room No. 21. This room, fronted on Prince street, was about ten feet wide by fifteen long with an alcove for the bed adjoining the main hall while a narrow hall led from the main hall to the room by the side of the alcove. I am thus particular in describing the room because it has a direct bearing upon the story I shall relate.

The room has but one window, and beside that is the fireplace, and both together take up the entire wall space. An old-fashioned bureau stood by the window on the left hand of entering the room. A stationary washstand with a movable gas burner above, was placed between the bureau and the door leading into the little hall. A rather faded Brussels carpet covered the floor, and a small oval marble-topped table stood in the center of the room. A couple of easy chairs and two plain chairs also stood about. On the right hand side of the room was a wardrobe near the foot of the bed, just outside the alcove, and between that and the fireplace was a lounge. This completed the furnishing of the room.

I had arrived from a railroad journey and was very tired; but in superb health. I never was one likely to indulge in visions; and I wish it distinctly understood that I am not a Spiritualist, and do not believe in spiritual manifestations in any way. I relate what I have to say just as it happened, leaving the explanation to any one who can explain it.

I arrived, as I say, and was given this room. I had my dinner served in the room, and sat there until nearly midnight writing letters, and then calling the bell boy and giving him the letters, I closed and locked the outer hall door, and then the inner one, and after looking at several photographs of friends, I left them and my writing materials on the table, and went to bed, first assuring myself that there was no possibility of any one entering the room by the window. There were no transoms, only a sort of window-blind slot-work over the head of the bed for air. I left the gas turned up slightly, and the little table by the side of the stationary washstand, where I had drawn it for the sake of light, there being no other burner in the room.

STRIKE BY CAPITALISTS.
SOME QUEER BUSINESS RUMORS.

Reported Organized Movement to Crash Out Trades, Unionism—Alleged General Lockout to Head Off a General Strike.

NEW YORK, Dec. 16.—The belief prevails here, among many who are in a position to speak with intelligence, that the depression in the iron and other manufacturing industries is largely fictitious. But there is reason to believe that this curtailment is wellcome, and that it is a part of a concocted plan on the part of heavy manufacturers to strike telling blow at trade-unionism by hitting workingmen hard at that season of the year when they are most helpless. In other words, it is believed that there is in progress a quiet and determined strike of capitalists against labor, taking the form of general lockouts in all the great manufacturing centers of the country. The vigor shown during the last eighteen months by the trades organizations has had the effect of arousing capitalists whose money is invested in manufacturing to the belief that they are on the eve of a great struggle for the mastery of their own property. There is, furthermore, a belief that the labor organizations will not delay longer than the next summer a definite test of their strength, and that, unless they are demoralized and disrupted during the present winter, there will be, as early as July next, another widespread strike similar to that which culminated in the Pittsburg riots, and that it will be ten-fold more serious and determined than anything that has been seen in the history of this country.

For this reason the theory is that the manufacturers are this winter determined on a starving out process, which will leave the workingmen next season hungry enough to be glad of anything that will give them bread. The closing of the Pennsylvania coal miners, and the shutting down of manufacturers in all parts of the country, throwing thousands of men out of employment at the time when they most need employment, is regarded as the evidence of a concocted policy of this nature. The effect of this course has already been to create an uneasiness in the business world which is without adequate foundation, the alleged depression being more artificial than real, and it is feared that, should the policy be pursued, there will be a temporary commercial disturbance as damaging as it is unnecessary.

In addition to the concerns that have already closed and thrown out their employees, there are rumors of many more heavy manufacturers about to take the same step, and by the first or second week in January, it is believed, the lockout will be fully developed into an organized capitalists' strike.

A NARROW ESCAPE.

The Casino in New York Attacked by Incendiaries.

NEW YORK, Dec. 16.—A remarkable story of an attempt to burn the Casino, at Thirty-ninth street and Broadway, on last Wednesday night was made known yesterday by Inspector Byrnes. Yesterday morning Mr. Rudolph Aronson and his brother Edward, the managers of the Casino for the stockholders, called upon Inspector Byrnes and informed him that a dastardly attempt had been made to destroy the theater by fire. Detectives Steven and Duzenberry were assigned the case, and, on making an examination, they discovered that a box filled with combustibles had been placed in a little room over the balcony box and that a lighted candle had also been placed in the box, which, in burning down to the bottom, would set the inflammable matter on fire and probably would have destroyed the theater. Fortunately the watchman, Frederick Tryburg, on going his rounds, noticed that the door of the little room was fastened and a light was burning in the room. He quickly forced open the door and discovered the candle burning in the box of combustible. Suspicion fell upon Edmund J. Rough, the stage carpenter, and he was arrested yesterday as he was leaving his residence. On being taken to police headquarters Rough at first denied his guilt, but on being confronted with Mr. Aronson he confessed that he placed the box in the little room on Wednesday afternoon, and that he put the lighted candle in the box just before he rang up the curtain for the last act. He said the reason he attempted to burn the theater was because he had been given notice to quit, and he did it out of revenge. There were about 1,200 people in the Casino at the time, and, had Rough succeeded in his evil design, the consequences would have been terrible. Rough is a Scotchman by birth, about twenty-seven years of age, and has been employed by the Casino for several months. He was taken to the Tombs Police Court yesterday morning and remanded back to the Central Office.

The Emma Bond Horror.

HILLSBORO, Ill., Dec. 16.—Lawrence Heinsen, uncle of John Montgomery, one of the defendants in the Bond case, testified in Friday that, on the morning after the outrage, Mrs. Pettis, her son, Lee, and Clementi stopped at his house after taking Miss Bond to her home. Mrs. Pettis told him of the affair. Lee Pettis and Clementi refused to answer any questions or alarm his neighborhood. Witness found in the loft of the school house at daylight Miss Bond's parsonal scarf pin, and discovered a hole freshly torn through the flooring of the west end off. When Montgomery heard there were scratches and cuts on Miss Bond's neck, he exclaimed, "My God, what will we do?" Montgomery asked if he would be protected if he knew anything and would give it away. Witness said he found a pool of blood on the school house floor, just beneath the scuttle-hole. This corroborated Miss Bond's statement that when attempting to get up she fell and caused her nose to bleed. He also picked up some hair over a foot long in the loft.

President of a Typographical Union Arrested.

NEW YORK, Dec. 16.—John O'Donnell, the President of the Typographical Union, was arrested in front of the Tribune Office last night, charged, nominally, with disorderly conduct, his offense being interference with the Union printers now on a strike. He denied the charge, and was admitted to \$500 bail.

Henry Ward Beecher's Church.

BROOKLYN, N. Y., Dec. 16.—The annual meeting of the Plymouth Church Directors was held last night in the lecture room of the church. Mr. Thomas Shearman presided. Mr. C. F. Christensen, the clerk, submitted his report, in which he showed that the membership last year was 2,548, of which 1,688 were women. The total collections during the year were \$55,172, of which \$37,000 was for pew rents. The following officers were elected: Frederick C. Marvel, Clerk; G. V. White, Treasurer. A Board of Deacons was also elected for three years.

French Labor Delegates in Philadelphia.

PHILADELPHIA, Dec. 16.—The French labor delegates arrived in this city yesterday and were met at the station by the Committee Nationale. They were driven to Fernwood Cemetery, where the grave of Robert Fearing took his wife to North Carolina to visit his relatives, and the wife claims that there, to her surprise, she discovered her husband to be of African descent. She is now a resident of Maryland, and, as miscegenation is prohibited by the laws of Maryland, she asks for a decree declaring the marriage null from the date of its celebration. She is pretty and has abundant means.

Senate Committee on Territories.

WASHINGTON, D. C., Dec. 16.—At a meeting of the Senate Committee on Territories, the bill providing a civil government for the Territory of Alaska, introduced by Senator Harrison, was considered. An amendment, providing for the establishment of schools to be open to the children of both whites and Indians, was adopted, and the bill was ordered to be reported to the Senate. The committee also considered the bill authorizing retired army officers to hold offices in the Territories, to which they may be elected by the people thereof. It was acted upon favorably and ordered to be reported. Other measures before the committee were taken up and referred to the sub-committee.

With celery, pickles,
And knick-knacks in force;
Where? do you ask,
Why, Heise's of course.

PORTSMOUTH now has a paper box manufactory.

The street cars were laid up this morning on account of the snow blocking the track.

WILL Cox's doll house is not complete. It needs a hog entering the front door to make it look perfectly natural.

DANVILLE has determined to enforce prohibition. Seventy-seven indictments have been found against liquor dealers in that town.

THERE are eighty Granges in Kentucky which have a membership of about one thousand. The order has lost ground in the State the past year.

An exchange says that the proper time to burn tobacco beds and sow seeds is during the light of the moon in February, if an early crop is desired.

HARVEY ARMSTRONG, who lives near Manchester, was shot and fatally wounded on Saturday morning by Sam Smith, the result of a quarrel. Both are colored men.

THE street car tracks at Cincinnati are kept clear of snow by fastening in the proper position in front of each car two hickory brooms. We do not charge the Maysville company anything for this information.

The Outlook says M. James C. Hamilton, of Bath county is preparing to build twenty tobacco barns, and will raise two hundred acres of tobacco next year. Mr. Hamilton is one of the proprietors of the "Flat Creek Herd of Short-horns," the largest in the world.

The prospects are that a good class in wood-carving will be speedily formed. Miss Leitch will arrive in Maysville shortly after the holidays, and expects to begin the work without delay. Those who wish to join the class should leave their names immediately at Phister's book store, where terms may be learned.

A DESPATCH has been received by the BULLETIN, announcing that the new steamer Handy No. 2, is about completed. It is expected she will be able to make a trial trip today. She is a handsome boat and a credit to her builders.

The new Upper Ohio packet, Handy No. 2, is about completed. It is expected she will be able to make a trial trip today.

Mrs. JOHANNA LIEP died yesterday morning at seven o'clock at the home of her son-in-law, Mr. Joseph Brenner, on Front street, at the age of one hundred years and five days. Her birthday, it will be remembered, was celebrated last Tuesday, at which time she was visited by several hundred citizens of Maysville. The funeral will take place from the residence to-morrow afternoon at half-past one o'clock.

The burglary at Mr. George T. Wood's grocery store in East Maysville, Friday night, was described correctly in this paper with the single exception that the plate drilled through was an iron one and not steel. This plate formed the front of the safe-door. The report current in town that the burglar proof box inside had been drilled is a mistake. It was found open but the supposition is that it had either been accidentally left unlocked or that the combination knob had only been moved slightly, and had been set back to the opening point by the thieves. The box showed no marks of violence.

The marriage of Miss Alice McIlvaine to Mr. T. H. Seaton, of Honey Grove, Texas, will be solemnized at noon to-morrow at the M. E. Church, South, the Rev. Dr. Henderson officiating. The bride is one of our most popular citizens, whose removal from Maysville will be sincerely regretted by many friends. Mr. Seaton is a prominent business man of his town, and will be remembered by many of his old comrades in this neighborhood as a gallant soldier during the late war in the cavalry command of Gen. John H. Morgan. Mr. and Mrs. Seaton will leave immediately after the ceremony on a visit to Mr. Seaton's relatives in Kansas.

Baird's Minstrels Coming. The Baird minstrel troupe announced to appear at the opera house, January 1st, in an evening performance and a matinee, number about thirty performers. There are ten men, ten song and dance artists, ten clog dancers and other specialty artists. The Zouave drill is also a novel and interesting feature of their entertainments. Their performance will be the best of the kind ever given in Maysville. Persons living in the county and in the neighboring towns will have the opportunity to attend the matinee. The troupe has one of the best bands in the United States. The street parade will be well worth seeing.

PERSONALS.

Rev. Dr. Hidden, of Charloftesville, Va., has accepted a call to the first Baptist Church of Lexington.

Mr. George S. Schatzmann and Mr. Henry Bridges, two worthy young men of this city, left on the Bostonia yesterday morning for New Orleans.

Mr. J. W. Blackburn, of Frankfort, has been appointed to an important position in the folding room of the House of Representatives by Doorkeeper Wintersmith.

THERE were three hundred and twenty-five business failures in the United States last week.

The project of an experimental farm in connection with the agricultural college at Lexington, did not meet with great favor at the Kentucky grange, just adjourned at Frankfort.

The manipulators have control of the Chicago corn market and prices are uncertain. In wheat there is a heavy short interest. Indianapolis has lately lost \$1,000,000 in Chicago margins.

The November earnings of the railroads of the country exceeded those of last year by \$2,154,917. For eleven months of 1883 there is an increase of \$24,144,000, or about 11 per cent.

It is said that the Standard Oil Company of Cleveland, is the money power of the Southern Gas Company of Louisville, an association that goes about putting up gas works wherever they will do the most good.

SPEAKER CARLISLE stated to the Washington correspondent of the Courier-Journal, that he was not a candidate for United States Senator from Kentucky, and that his name would not go before the Legislative cameras.

Open Letter.

I have changed my mind. I will not come this year with linen duster and fan. Yours truly, KRIS KRINGLE.

A Card.

During my absence in the South, my insurance business will be conducted by O. T. Poynz, who will continue to offer indemnity in first class companies at extremely low rates. Jno. B. POYNZ, Jr. Maysville, Dec. 14, 1883. d14d3t

Card.

Circumstances will probably require my removal from Maysville about the first of January, and I therefore withdraw from the race for assessor. I return my sincere thanks to all who have kindly supported me in the contest. CHARLES H. WALZ.

The Right View.

Sunday Morning Call.

Those persons who want the hog as Maysville's scavenger, reason like those who want boils to purify the blood. It is not much better to prevent the impurities than to have the pain and annoyance of a boil. Let us put off the hog, haul off our garbage, and our city will be clean and attractive.

COUNTY POINTS.

GERMANTOWN.

The most enjoyable society event that has occurred here for years was the entertainment given by Mr. and Mrs. L. H. Mannen, Dec. 18th, on the occasion of the marriage of their daughter, Miss Eva Pollock to Wm. R. Christopher, Attorney at Law, and Mr. and Mrs. C. Ceremony by Rev. W. W. Spates, a beautiful and impressive. The bride was becomingly attired in an elegant wine-colored silk and velvet suit and bonnet. The entire house was thrown open to the one hundred and fifty guests assembled and host and hostess were in full swing, and each other in rendering the evening one of unalloyed pleasure. The menu comprised all the substantial delicacies of the season in the greatest profusion and was discussed with zest by the happy throng. At a late hour the company adjourned wishing the happy young couple a quiet prosperity and a long and bumper of happiness in the years to come. The following is a partial list of presents:

Rescued From Death.

Wm. J. Coughlin, of Somerville, Mass., says: In the fall of 1876 I was taken with bleeding of lungs followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1877 I was admitted to the hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. Wm. Hall's Balsam for the lungs. I got a bottle, when, to my surprise, I commenced to feel better, and to-day I feel better than for three years past.

DIED.

At Clinton, Mo., December 6, 1883, of consumption, Mrs. Sallie Pennebaker, Lashbrooke, wife of Mr. S. B. Lashbrooke, formerly of this county.
